CONSUMER BEHAVIOR 2017-2018

12th Edition | September 2016 | ISBN: 9781577832430 | 550 pages
\$385.00 (print or electronic edition) | \$485.00 (print and electronic edition)

Consumer spending accounts for 70% of the U.S. gross domestic product, or over \$11.6 trillion. *Consumer Behavior 2017-2018* assesses how this spending is distributed, the consumer behaviors that affect spending, and marketing techniques used by companies to maintain or expand their markets.

Consumer Behavior 2017-2018 presents dozens of surveys analyzing consumer spending characteristics, behavioral responses, and preferences. Easy-to-read summaries of current research and other information useful for retailers, marketers, advertisers, and business consultants are presented. While there are other publications focusing on general consumer behavioral topics, *Consumer Behavior 2017-2018* is the only resource that integrates the full spectrum of applied consumer psychology, demographics, and purchasing influences with major consumer surveys.

The demographics chapters present valuable insight into 25 segments, including the Hispanic, African-American, Asian-American, Baby Boomer, Generation X, Millennial, LGBT, affluent consumer groups, and more.

Over 650 website links – directly embedded into the electronic edition – will direct you to additional market research and other resources.
